

EQUIPMENT RACK CART

Da-Lite is pleased to expand its wood line to include three sizes of the Equipment Rack Cart. The Equipment Rack Cart is a multi-room transportable solution for rack components that handsomely blends with meeting room aesthetics and is available as 12, 21 and 30 rack space unit models. The 12 rack space unit is designed to fit under a 30" high table and the 21 and 30 rack space units are designed as freestanding. Components are accessible by the key operated front and rear access panels and the smoked glass front panel allows infrared signals to pass through. A UL® listed cooling fan provides air circulation as do the dual bottom vents. The Equipment Rack Cart is standard with a six outlet power strip with surge suppressor and cord management access points on both the top and back of the unit.

EQUIPMENT RACK CART

Choose standard or custom veneer finishes to match conference room furniture and decor.

Veneers

Honey Maple

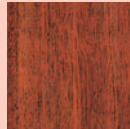

Medium Oak

Heritage Walnut

Mahogany

Light Oak

Natural Walnut

Cherry

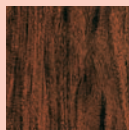

Laminates

Light Oak

Mahogany

Gunstock Walnut

Available as 12, 21 and 30 rack space sizes.

Sturdy casters negotiate thresholds and uneven surfaces protecting components. Oval shaped cutouts provide additional ventilation.

Standard rack rails allow stacking multiple components. All sizes include both front and rear rack rails.
